## Conferences

Immediate and direct access to the thought leaders in your industry and a large number of your fellow professionals. Six to eight case studies provide an insight into how top experts are dealing with key points of law and need-to-know judicial rulings. Supporting workshops offer practical and specific guidance. Carrying up to 6.5 CPD points each, our one-day conferences are an opportunity to network with and learn from the key personnel in your industry – away from the office and in a top-class environment.

## Webinars

The most flexible and cost-effective way of receiving your full CPD requirement. Focussing on key topics, our webinars deliver expert analysis direct to your desktop. Consisting of a one-hour streamed video and audio broadcast, an online CPD assessment and downloads featuring exclusive LexisLibrary content, webinars deliver the best and latest guidance, when and where you choose. View a live broadcast over lunch and participate in the debate – or review and replay on demand. Either way, webinar training will not take a fee earner out of the office and away from chargeable client work.

## Courses in partnership with BPP Professional Development
